

**GRE Records Strongest Year in Organization’s History
More than \$1 Billion of New Capital Investments**

Greater Rochester Enterprise (GRE) is a not-for-profit economic development organization dedicated to improving economic performance in the region. GRE works to position the Greater Rochester, NY region as one of the most innovative regions in the world, to attract new private investment and economic growth. GRE collaborates with local businesses, universities, not-for-profit organizations, and government leaders to provide a unified approach to economic development and support entrepreneurship, innovation, business attraction and expansion throughout the region.

GRE connects business executives with the right people and the right resources throughout the region including real estate, research and development assets, local supply chain and business partners, international trade assistance, economic development incentives, recruitment assistance and training funds.

The GRE team has managed hundreds of different business attraction and expansion projects since the organization was established. Since 2006, Amazon, American Packaging, Barilla America, Bausch + Lomb, Carestream Health, FedEx Freight, Frontier Communications, Gorbels, Greenlight Networks, IEC Electronics, Li-Cycle, LiDestri Food and Drink, Love Beets USA, Maximus, Optimax, Pactiv, Paychex, Plug Power, ProAmpac, Pride Pak, Rochester Precision Optics, Security Risk Advisors, VIAVI Solutions, and Zweigles, among others have spent more than \$3.5 Billion on new capital investments constructing and outfitting new manufacturing plants and operation centers or updating existing facilities while hiring more than 17,000 people.

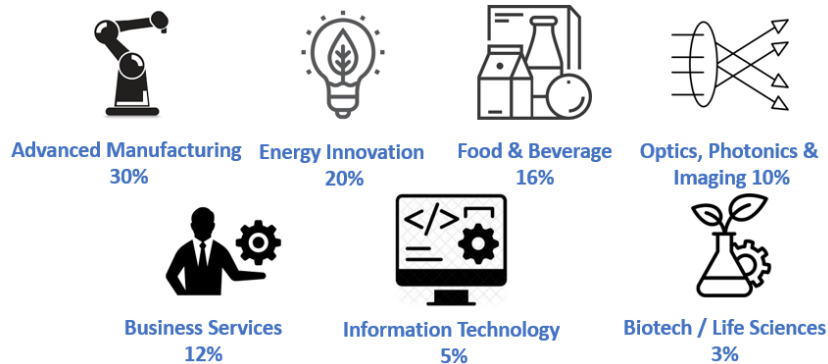

GRE reports a significant increase in key performance metrics versus the prior year and five-year historical data. The increase in project wins, new projects secured, and total projects managed is a result of enhanced business development strategies, targeted marketing, focused and sustained outreach and relationship building with industry experts, business leaders and site selectors. A total of \$1 billion of new capital investment is an increase of 79% versus 2020 results, which was GRE’s previous record high year. When looking at a five-year trend, GRE has seen a significant increase in projects managed. GRE recorded a 116% increase in project wins, a 141% increase in new projects, and a 159% increase in total projects when compared to five years ago. These increases are without an increase in manpower or marketing funds.

During 2021, GRE recorded 39 project wins, setting a new record for the largest number of project wins in the company’s history. These projects represent more than \$1 billion of new capital investments, the creation of 2,341 new jobs and the retention of 2,893 jobs. The following chart outlines several of these project wins.
