

## Top Optics and imaging Companies in the Greater Rochester, NY Region

Company	Local Employees	Description of Business
L3 Harris Technologies Corp.	3,700	Tactical communications products, high resolution imaging systems, remote sensing and ground-based astronomy systems and satellite communications
Xerox Corp.	1,754	Document systems, software, services and supplies
Eastman Kodak Co.	1,300	Imaging materials and equipment
Bausch + Lomb Inc.	1,268	Contact lenses
CooperVision Inc.	1,268	Soft contact lenses and related products
Carestream Health Inc.	570	Imaging materials and equipment; hardware, software, consumables and services with expertise in chemical and material science, including thin-film and roll-to-roll technologies
Optimax Systems Inc.	474	Optical components including aspheres, cylinders, prisms, spheres and freeforms for ultraviolet, visible and infrared application
IDEX Health & Science	460	Global optofluidic authority for life sciences market. Complex lens assemblies, optical imaging systems, optical shutters, optical filters
Kodak Alaris Inc.	400	Photo, imaging and information management
Corning Advanced Optics	310	Global supplier of materials and optics for the semiconductor manufacturing industry
EagleView Technologies (formerly Pictometry)	300	Geospatial software, aerial imagery and analytics
Quality Vision International Inc.	278	Designs and builds a complete line of dimensional measuring machines that combine optical, laser, and contact sensors into easy-to-use systems; Video measuring systems for manufacturing quality control
Rochester Precision Optics, LLC	250	Optical lenses, optical components, lens assemblies and sub-assemblies, machined parts, electro-optical imaging systems and sub-systems, advanced plastic optics, precision glass molded optics, infrared lens components and materials
MKS Instruments	233	Diffraction gratings; power solutions, optical components for semiconductor, including memory, logic, and analog
Brinkman Precision, Inc.	180	Component machining and assembly for the aerospace, medical and oil and gas industries
Syntec Optics	170	Develops and manufactures polymer optics and opto-mechanicals used in biomedical imaging applications
ORAFOL Precision Technology Solutions	166	Produces specialty tooling used in the manufacture of microstructured optical films and plastic lenses
Thomas Electronics, Inc.	160	Produces products for the electronic display and imaging markets
Empire Precision Plastics	110	Polymer optic design and manufacturing
Optipro Systems Inc.	105	Develops and manufactures precision optical fabrication machines and metrology systems; distributor of leading-edge precision machine tools and solutions, including Mastercam - the number one CNC software
Vuzix Corp	105	Waveguides, wearable display technologies and augmented reality (AR) solutions, Smart glasses and personal display devices
Micro Instrument Corp	100	Fabrication support to photographic, optics, and photonics companies
Rlab	100	Advanced manufacturer supplying and developing lenses and glasses for consumer, military, and AR/VR applications.
